

Cost Analysis for the KYK Harmony Water Ionizer:

Yearly cost for the KYK Harmony machine:

\$1499 retail price divided by 30 years average lifespan = \$49.97 a year, divided by 7000 liters of water produced a year = **.0071 cents a liter.**

Yearly cost for the .01 replacement filter:

7000 liters filtering capacity at \$74.99 a filter = **.0107 cents a liter**, lasts one year.

Filter cost per liter (.0107) + machine cost per liter (.0071) = **.0178 cents a liter.**

Total cost of ownership per year (7000 liters premium water produced) = **\$124.60**

Compare that to the Alhambra guy: (\$9 a 5 gallon bottle)
Or compare that to bottled water: \$1-3 per 12 ounces.

Plus KYK water clusters are 2.5 times smaller than bottled water and our water is full of oxygen and antioxidants.

KYK premium ionized water will **save you money!**
